

# Declaration of liability

for PCC press fittings PRESS STEEL, PRESS INOX, PRESS COPPER,  
PRESS COPPER AQUAGAS and PRESS STEEL HD as well as PCC pipes

The PCC press fittings and PCC pipes are manufactured using high-quality materials. As part of quality assurance, the most crucial parameters and properties are checked constantly.

For a period of 2 years from the date of delivery, we guarantee that the press fittings supplied by us are free from production and material defects at the time of delivery.

Nevertheless, should our press fittings or our pipes verifiably display production or material defects at the time of delivery and we are at fault, the rights of our customers shall include the following:

- Amendment or subsequent delivery of the defective parts, including the absorption of costs incurred by rectification, upgrading, approval or uncovering of defective products
- In the event of failed amendment or subsequent delivery attempts, withdrawal from the contract, or reduction
- Compensation within the framework of the following maximum liability limits, if we are at fault for defects

Moreover, for a further 8 years, therefore a total of 10 years from the date of delivery, we will provide compensation for:

- Damage to the products supplied by us
- Direct damage caused to other items by defective products supplied by us
- Expenses incurred by the rectification, upgrading, approval or uncovering of defective products

Moreover, the prerequisite for this liability is that damage that could substantiate our duty of compensation is disclosed to us within 5 days of it being detected. Liability for damage that does not appear on the products supplied by us themselves is limited in all cases to the maximum liability limits set out in the business and liability insurance policy.

The insured sums per insurance claim are:

**EUR 3.000.000 for personal injury, material damage and for financial loss**

The overall cover for all compensation claims within an insurance year is restricted to three times these insured sums.

No liability is assumed for improper use, or fitting or installation errors. Our general fitting and installation guidelines are binding.

Territorial scope: Worldwide excluding USA, US territories and Canada.

In case of doubt the German version applies.
